

Kirgiz carpet with star flower design and diagonal stripe border

code	XR77
size (m)	1.5x2.8
estimated age	80-100 years
comments	<p>A striking Kirgiz carpet with a field of star-flower shapes that are characteristic of Kirgiz carpets, coupled with a border reflecting the influence of Chinese textiles.</p> <p>Many Kirgiz carpets contain weaver's "signatures", often small woven figures such as goats and other animals. In this case the signature is a small human figure, with a white head rendered in silk.</p>
